Your Complete Source of Marine Engine Parts

1-800-621-7761

GENERAL POLICY

Pro Marine, Inc. reserves the right to open wholesale accounts to legitimate marine businesses who maintain a proper business establishment and purchase in wholesale quantities. We carefully screen all new Dealer applications to be certain they come from legitimate Dealers. We reserve the right to refuse to sell to any account meeting or not meeting Dealer requirements. A copy of your state's resale certificate of registration must be on file with Pro Marine, Inc. Possession of this catalog does not constitute an offer to sell.

SHIPPING

All packages are shipped Standard Ground Shipping by default unless other arrangements are made. Orders received by **5:00 PM** EST will be shipped the same day. However, orders placed after 5:00 PM will not ship until the following business day. If you are placing an order for GROUND delivery, please allow 3-5 business days for your order to be received. In the case of a back-order or substitution, customer service will attempt to reach you via telephone. Please contact us immediately if your order is incomplete, damaged, or lost in transit. A replacement will be sent at no additional cost if Pro Marine or shipping carrier is at fault. The return policy may be applied to any order refused or canceled after shipment.

Shipping standards do not apply to failures caused by conditions beyond Pro Marine's control including, but not limited to, acts of God, riots, strikes, labor disputes, or disruptions in communication or transportation networks.

We will ship to any carrier acceptable address, however we can ONLY ship to post office boxes in Puerto Rico and Alaska via Priority Mail. Pro Marine, Inc. reserves the right to limit quantities and/or charge actual shipping charges on oversize packages based on weight and/or dimensions. In this case, you will be notified prior to any additional charges. Pro Marine, Inc. reserves the right to change the shipping method when and as necessary, with or without notice.

DROP SHIPMENTS

Pro Marine, Inc. will drop ship special requests for dealers at no extra charge as a convenience only. Dealers who abuse this privilege may be charged a \$5.00 service charge per shipment. Drop ship dealers who operate websites and use Pro Marine frequently to drop ship directly to their customers will be charged a drop ship fee of \$10.00 on all orders under \$100.00. Drop Shipments do not qualify for any shipping discounts, upgrades or promotions. ALL shipping charges will be the responsibility of the dealer.

TERMS

Pro Marine, Inc. accepts COD, Visa, Mastercard, American Express & Discover or ACH (Electronic Check) for payment. Pro Marine, Inc. does not extend credit or open terms, all accounts are COD or prepaid. There is no minimum order required to place an order, however, to qualify for shipping incentives, a minimum order of \$100 is required.

There will be a \$35.00 service charge added to your account if a check is returned from the bank as uncollectable for any reason. Any check fees charged by the bank will also be added to your account. Subsequent orders will be shipped "Cash Only" until all fees are collected as a result of non sufficient funds.

RETURNS

If you are not satisfied for any reason, you must call for a return authorization within 15 days of purchase date for a full refund. All returns must be made within 30 days of the purchase date and all returned merchandise must be in the original package in good resalable condition. To insure proper credit, you must call in advance to request an RGA number which must be included with your return. An RGA issued is valid for 30 days and will be void if not used within that time frame. Any returns received without an RGA will be refused or disposed of and no refund will be issued. Pro Marine, Inc. reserves the right to refuse or reject any return.

Warranty Returns must be within 1 year or the manufacturers warranty period & accompanied by an RGA and the original purchase invoice. Shipping charges are NOT warranty and will not be covered. For items not manufactured by Pro Marine, it is recommended to contact the manufacturer of the product directly to avoid additional shipping and possible time delays.

There is no restocking charge for defective merchandise or shipping errors. Any item returned after 15 days and before 30 days from invoice date will carry a 15% restocking fee. No returns or RGA's will be issued after 30 days from invoice date. The customer is responsible for all shipping costs to and from Pro Marine, unless there was an error on our behalf. We cannot accept COD return shipments. Refused packages will still be charged full shipping costs.

NO RETURNS on Special Order Items of any kind! No returns on items of \$5.00 value or less!

There are ABSOLUTELY NO RETURNS on electrical or used (installed) parts. This includes, but is not limited to wiring harnesses, CDI Boxes / Power Packs, Fuses, Relays, Switches, etc. Electrical parts that have been determined to be defective will be replaced with the same part number only.

Any fuel pump, mechanical or electrical, returned as defective will be tested to determine failure. Credit will only be issued if found to be mechanically defective. If debris or ethanol was the cause of premature failure, credit will NOT be issued. All fuel pumps should be sold "As Is" and at the risk of the end user.

Refunds are limited to store credit only by default unless prior arrangements have been made or if a mistake is made on our behalf. All Returned / Refused orders will be charged Shipping & Handling.

PRICING

Pricing published in this catalog is not guaranteed and will NOT be honored due to typographical errors or periodic economic increases. Due to worldwide currency fluctuation, all prices are subject to change without notice. Pro Marine, Inc. strives to provide reasonable pricing but does not guarantee pricing in any way. On many items standard price increases are set forth by the manufacturers and are implemented regularly by distributor agreements. When possible, our sales force will always attempt to notify customers of any price changes. Always call in advance or review the packing slip to verify current cost. Pricing updates are available in Excel format upon request. Pricing is NOT guaranteed.

SPECIAL ORDERS

Pro Marine will special order specific parts at the request of the customer whenever necessary as a standard service. Due to the additional effort and cost involved when processing special order items a FLAT RATE of \$9.00 will be applied to each invoice to cover incoming shipping and miscellaneous handling. Please remember, NO RETURNS on special order items.

PRODUCTS

Features, options and specifications on any product pictured or described herein may vary from actual features and specifications on any product. Some pictures may show additional options, and/or equipment not included in the sale price. Changes including, but not limited to; colors, graphics, decals, specifications, and price are subject to change without notice. The weights, volumes and specifications contained in this website are estimates. We disclaim any and all liability for errors or omission contained herein.

PRIVACY

Pro Marine, Inc. respects your right to privacy and will not share, sell or trade any personal or company information you provide at any time without your expressed consent.

Pro Marine, Inc. reserves the right to change its policies and procedures when and as necessary, with or without notice.

Pro Marine Limited Warranty

Pro Marine, Inc. warrants the products it produces to be free from defects in materials and / or workmanship under normal use for a period of ninety (90) days after the date of original purchase. If in this ninety (90) day period a defect in the product should occur, the product may be returned for replacement, free of charge. Your sole remedy in the event of a defect in a product is limited to replacement of the product as provided above. Except as expressly provided above, Pro Marine makes no warranties, either express or implied, with respect to consequential damages arising out of or in connection with the product. Income, profit or losses sustained as the result of injury (including death) to any person, or loss of or damage to property. Installation of these parts could adversely affect the motor manufacturer's warranty coverage. Pro Marine is in no way affiliated with OMC Corporation or Mercury Corporation. Information contained in this catalog is subject to inspection by all parties relying on it. No liability for its accuracy, errors or omissions is assumed by the seller. Any cause of action brought about from the use of this catalog or any of its products shall take place in Manatee County, Florida.

All Products distributed by Pro Marine, Inc. carry their respective manufacturers warranty only.

Pro Marine Now Stocks Rocker Switches!

Honda

Johnson
Evinrude

We now stock a full line of Marine Quality Rocker Switches for all applications! From Nav lights to bilge pumps we have the switches for you. With a wide variety of illuminated & non illuminated switches as well as White, Gray, Black, & Red actuators you'll find we can accommodate every boat's switch needs!

Terminology:

Switch Poles: Refers to the number of circuits the switch controls.

Single Pole: Controls just one circuit

Double Pole: Controls two separate circuits. Basically two single pole switches integrated into one switch.

Throw: Refers to how many positions a switch has.

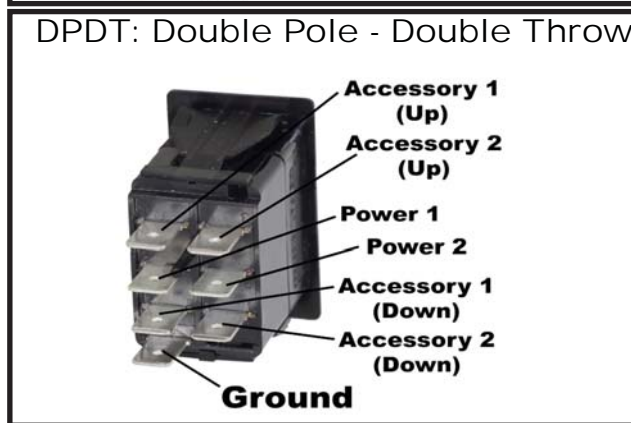

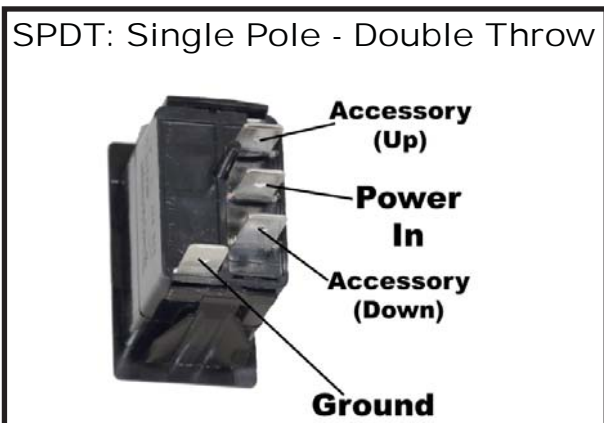

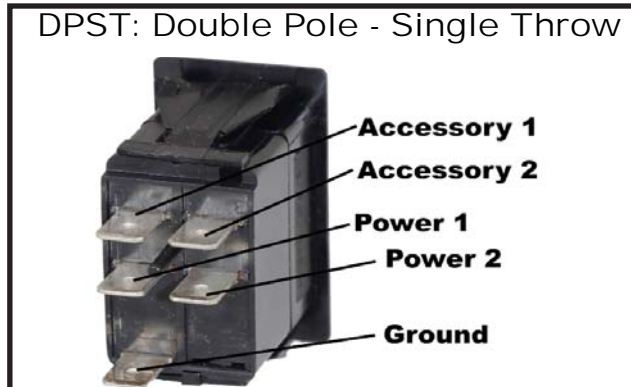

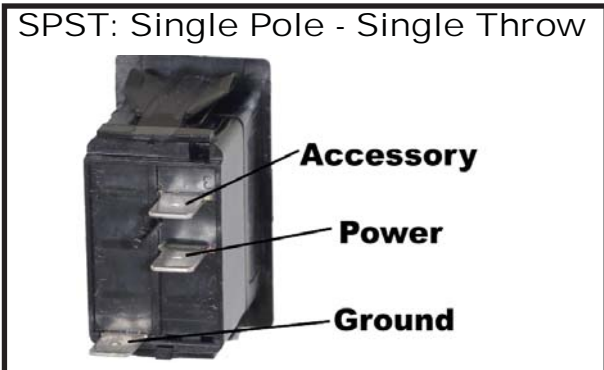

Momentary: Refers to a switch that is only engaged when the switch is physically pressed down.

Mercury

Suzuki

Tohatsu

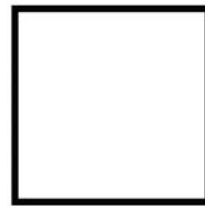

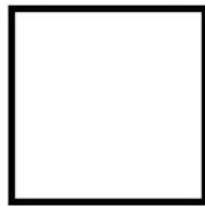

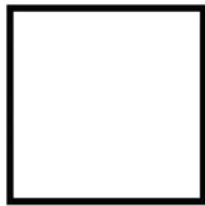

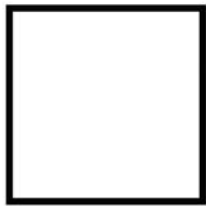

Yamaha

** Ground is for illuminated Switches Only **

Pro Marine Rocker Switch Part # Guide

To order a complete rocker switch follow the below numbering system

Number of Positions
1 = Single
2 = Two

Momentary or On / Off
M = Momentary
O = On/Off

Single or Double Pole
S = Single
D = Double

Switch Color
B = Black
W = White
G = Gray
R = Red **

Illuminated?
Y = Illuminated
N = Not

** Red Actuator -
Non Illuminated only!

Example:

For a Single Position, On / Off, Single Pole switch with a White Actuator that lights up order:

1 O S W Y

Example:

For a Double Position, On / Off, Double Pole Switch with a Gray Actuator that does not light up order:

2 O D G N

Complete Switches include Seal.

** Note ** Individual Components do not include seal Please order separately!

① Must use a WP29-1 Wrist Pin Bearing (Same as a Wiseco W5216)

② Uses 4036-29 wrist pin bearing and 2 Wp37W washers or 4036-1 (Top Guided Rods)

** In 1987 both 3.187 & 3.312 blocks were made, and in 1992 both 3.312 and 3.375 bore size blocks were made.

Check bore to insure proper piston.

* Wiseco Rings fit Wiseco Pistons Only

Wiseco 3151 Series and Pro-V5100 Series Piston for Force Engines:
 Many of the Force L-Drive Engines were with a piston which has two large holes machined in the piston skirt.
 Force produces the L-Drive motor with these holes to reduce the piston weight. Wiseco and Vertex were able to match the piston weight without the holes, which in turn produces a stronger piston.

Wiseco 3129 & 3151 Series pistons take the WP29-1 bearing kit. OE pistons for the same engines take the WP29 bearing kit. A Wiseco W5216 bearing is the same as a Pro WP29-1

Important Reminder:
Call us BEFORE having your block bored. Although we do stock a lot of pistons, there are occasional backorder situations that could be avoided by checking for availability and boring to an available size.

Replacement Wiseco Rings can be ordered as well.
Wiseco ring numbers can be obtained by taking the bore size and adding a KD after it.
Example: A 3067PS piston has a bore diameter of 3.187".
The Wiseco ring set part number would be 3187KD

For sustained High RPM operation (racing), add R suffix, e.g. 244R

Reeds are one way valves controlling the amount of air/fuel mixture entering the crankcase of your outboard engine, then sealing it in order to prevent it from escaping. Every two cycle outboard has them. But, the stock reeds in your outboard have a single-stage design that limits their efficiency. That's why stock outboards often cough and sputter at idle, fail to deliver a good hole shot, feel boggy or lifeless under throttle application, burn to much fule or lack top end punch. Plus, standard reeds are made of metal. Should one break, it could cause extensive damage to your outboard. Boyesen Power reeds are different... and better! They feature a patented dual-stage design allowing our reeds to respond instantly to any change in air/fuel flow as you accelerate or back off the throttle. The result? A dramatic increase in efficiency and performance across the entire power band, from start-up to flat out!

NOTE: CDI Electronics manufactures replacement stators for Force, Mariner and Mercury engines, using either the CDM modules or the standard switch box ignition system. In order to provide the correct replacement stator for your application, we offer the following information:

The "RED" series stator is recommended for CDM ignitions systems ONLY.

Pro Marine part numbers for the stator are 2075K1 (9 Amp) and 2075K2 (16 Amp) Stators for standard switch box ignition systems:

Engines manufactured from 1988 to 1995 using the one-piece cast flywheel will use either the 174-8778 or 174-9710 stators. The 174-8778 (9 Amp) stator can be used on engines with or without the rectifier / regulator. The 174-9710 (16 Amp) stator can only be used on engines equipped with a rectifier / regulator.

It is recommended that the original equipment stator part number

Part #s 8300, 8320, 8330 have a 30 Degree taper on top ring only

* Dash 1 Numbers include Washers (ex WP13-1)

Part #s 254, 2955, 2959, 2956, 6353 have a 7 degree taper on both rings

For caged version of wrist pin bearing WP13-1 order

Part #s 3096, 870, 2950 have a 7 degree taper on the top ring and rectangular bottom ring

WP13C, or for WP19-1 order WP19C

Part #s 3904, 3905, 3920, 3940 have a 30 degree taper on the top ring and a rectangular bottom ring

To identify the model year, utilize the acronym of

Part #s 3904, 3905, 3920, 3940 have a 30 degree taper on the top ring and a rectangular bottom ring

Important Reminder:
Call us **BEFORE** having your block bored. Although we do stock a lot of pistons, there are occasional backorder situations that could be avoided by checking for availability and boring to an available size.

User Tip:
Follow the engine make from the left to the far right page to find all your engine rebuild parts!

3 Cylinder OMC Outboard motors, 1975 and earlier use a 5/8" wrist pin. Newer motors use a 3/4" wrist pin. You can use a new piston in an earlier motor if you buy a WP15-1 bearing kit with each piston you want to use that has the earlier 5/8" rod.

Wiseco Ring Part # Guide:
Take the Bore Size and Add KD. EX: 3.187" Bore = 3187KD

Ⓞ 1506 has no Head Gaskets, Order (2) 966 for 3.5" bore

* Dash 1 indicates washers

• Special Order Part

For caged version of wrist pin bearing WP13-1 order WP13C , or for WP19-1 order WP19C

Part #s 8300, 8320, 8330 have a 30 Degree taper on top ring only

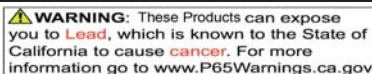

Part #s 3096, 870, 2950 have a 7 degree taper on the top ring and rectangular bottom ring

Part #s 254, 2955, 2959, 2956, 6353 have a 7 degree taper on both rings

Part #s 3904, 3905, 3920, 3940 have a 30 degree taper on the top ring and a rectangular bottom ring

Wiseco Ring Part # Guide:
Take the Bore Size and Add KD.
EX: 3.187" Bore = 3187KD

① 1506 has no Head Gasket. Order(2) 966's for 3.5"bore

* Dash 1 indicates washers are included (ex WP13-1)

③ V4 & V6 90 Degree Looper Gasket Kits contain a Seal Kit. 60 Degree Loopers do not.

For caged version of wrist pin bearing WP13-1 order **WP13C**, or for WP19-1 order **WP19C**

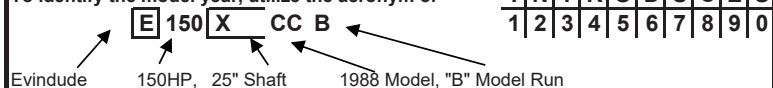

Part #s 8300, 8320, 8330 have a 30 Degree taper on top ring only

Part #s 3096, 870, 2950 have a 7 degree taper on the top ring and rectangular bottom ring

Part #s 254, 2955, 2959, 2956, 6353 have a 7 degree taper on both rings

Part #s 3904, 3905, 3920, 3940 have a 30 degree taper on the top ring and a rectangular bottom ring

To identify the model year, utilize the acronym of

Be Sure to wash the block with soap and water after honing. The stones will leave a very fine grit in the motor. This grit will wear the rings and walls very fast. Solvent will not wash all the grit off, so you must use soap and water. Then apply 2 Cycle oil on the cylinder walls to prevent rust

Long recognized as the world's leading manufacturer of aftermarket cylinder sleeve liners. Since 1945, our quality, service and technology provides our customers the finest sleeve liners their motors demand.

Marine

The Power of WAI

Features:

- Extensive product line available with +450 part numbers
- WAI products are tested to OE specifications
- 100% NEW units (no core)
- WAI / Transpo electronics in all alternators
- Premium WBD bearing
- J1171 marine certification approved
- Online ordering and cataloguing (e-store)

TECNOSEAL
save your dreams

Zinc, Aluminum and Magnesium Marine Anodes for Pleasure Boats and Yachts.

Tecnoseal is one of the world's leading suppliers of sacrificial anodes for cathodic protection in the leisure boat market, and for shipping, offshore and industrial applications. With over 30 years of experience, we produce and supply from our foundry in Grosseto (Tuscany) Zinc, Aluminum and Magnesium anodes with our own peculiar passion for seeking top quality perfection of the product and the customer service.

The Warranty **DOES NOT** cover such things as:

FREIGHT DAMAGE

Pro part boxes are not shipping boxes. If you are shipping a part to a customer or sending a warranty return, the part must be packaged in a way to prevent possible damage. Place extra packing material around the part, place it back in the part box and then into a well packed, sturdy shipping container.

To prevent damage, properly pack all parts before reshipment.

BROKEN SOLENOIDS

The solenoid was not broken when the starter was packaged to be shipped. We have special boxes made for the starters, and we use special packing materials to ensure the item will arrive to the customer safely. Sometimes, though, the packages are mishandled by the carrier (i.e., dropped or thrown) and the solenoid becomes damaged. This is the carrier's responsibility. It is not a material defect; therefore it is **not covered by warranty**.

RUST, CORROSION OR SUBMERSIONS

Pro treats every component with a special rust and corrosion resistant coating to prevent water damage. However, it is impossible to protect the unit from direct contact with water. Therefore, a failure directly caused by rust, corrosion or submersion is **not covered by warranty**.

BROKEN MOUNTING FLANGES OR SHAFTS

A broken flange is typically caused by improper installation. The mounting holes may look evenly spaced in a triangular pattern, but they are not—one hole is slightly offset. Forcing a mounting bolt into the offset hole may cause the flange to break. This may also occur if the mounting bolts are not tightened evenly. A broken shaft is caused by a malfunction in the gearbox. These breaks are not material defects, and they are **not covered by warranty**.

CUT WIRES OR DISMANTLED UNITS

Cutting a unit's wires or dismantling a unit immediately voids the manufacturer's warranty. In addition, taking a motor off the reservoir and trying to install it on an old reservoir usually damages the brushes and seals in the motor. Disassembled parts are **not covered by warranty**.

BROKEN NOSE HOUSINGS, DRIVE GEARS OR INTERNAL GEARS

This type of failure is always blamed on a bad casting, defective drive gear or internal gears. In fact, it is caused when a starter, spinning at a high rate of rpm, comes to an abrupt stop. This can occur when an engine backfires or momentarily releasing the start switch and re-engaging the starter before it has spun down. It may also happen when a cylinder suffers a water hydraulic lock. In either case, the damage is not due to a defective part, and is **not covered by warranty**.

Magnet Kit w/Epoxy, Flywheel

X-ref # 584304

Retail: \$31.89 D24L12R

Tech Note for V6 60° Only

- When changing an optical power pack on a black sleeved stator, the stator must be changed to a grey sleeved stator (4981)
- The black sleeved sensor WILL NOT WORK on a blue, grey or red sleeved pack. If the sensor needs to be replaced use P/N 133-6343.
- Power Pack P/N 58-4910 will replace all applications except black sleeved stator models.
- A blue, grey, red, or black sleeved pack will work with a grey sleeved stator.
- Grey Sleeved add part # 173-4981

- ① Requires Re-sleeving to use Wiseco Piston
- ② Mercosil is a boreable material
- ③ Special Order Item

Important Reminder:
Call us **BEFORE** having your block bored. Although we do stock a lot of pistons, there are occasional backorder situations that could be avoided by checking for availability and boring to an available size.

Low Dome Vs Regular Dome
Mercury's inline motors can use a regular or low dome piston. If you want to increase the reliability of a cylinder, with only a slight loss of power, use a low dome piston. It is okay to use a low dome piston with regular dome pistons.

Ⓢ Special Order Item

Important Reminder:
Call us BEFORE having your block bored. Although we do stock a lot of pistons, there are occasional backorder situations that could be avoided by checking for availability and boring to an available size.

Low Dome Vs Regular Dome
Mercury's inline motors can use a regular or low dome piston. If you want to increase the reliability of a cylinder, with only a slight loss of power, use a low dome piston. It is okay to use a low dome piston with regular dome pistons.

⑤ No Head Gaskets in Kit, Must be ordered separately
 * 6 Bore Seals Required per Engine. Add (2) 8452 for Cylinder Head Water Jacket Seal

Important Reminder:
 Call us BEFORE having your block bored. Although we do stock a lot of pistons, there are occasional backorder situations that could be avoided by checking for availability and boring to an available size.

Low Dome Vs Regular Dome
 Mercury's inline motors can use a regular or low dome piston. If you want to increase the reliability of a cylinder, with only a slight loss of power, use a low dome piston. It is okay to use a low dome piston with regular dome pistons.

- ① Pistons fit bottom guided rods only. # 636-8118
- ② Pistons fit top guided rods only # 644-818141
- ③ When using this piston in a sleeved block, bore is 3.377" and uses a different ring
- ④ Sleeved Hole Available. Add -SH to part number when ordering.

Top Guided or Not Top Guided
It's easy to tell by looking at the forging number on the rod.

Model	Top Guided	Bottom Guided
3 & 4 Cyl	646-81884	638-85321
V-6	644-818141	636-8118

User Tip:

Be Sure to wash the block with soap and water after honing. The stones will leave a very fine grit in the motor. This grit will wear the rings and walls very fast. Solvent will not wash all the grit off, so you must use soap and water. Then apply 2 cycle oil on the cylinder walls to prevent rust

ALWAYS WAIT UNTIL THE SLEEVE ARRIVES BEFORE BEGINNING ANY MACHINE WORK. Never assume that the stated model and year of the cylinder is correct. Always check to see if the sleeve ports match the cylinder ports.

Center Main Crankshaft Bearings

167 Style
1991 & Up
Larger Diameter
& No Lip
2-3/8"

3495 Style
Has a lip on each
side
2-1/16"

Early Style 445
Has no Lip
2-1/16"

Notes:

When substituting V-6 Mercury Crankshaft, be sure to use the correct center main bearing or severe damage will occur. Plastic cage in 167 and 447 bearing will wear out in a wrong crank. Please call Pro Marine Customer Service at 1-800-621-7761 with any questions.

* Special Order Part

Reeds are one way valves controlling the amount of air/fuel mixture entering the crankcase of your outboard engine, then sealing it in order to prevent it from escaping. Every two cycle outboard has them. But, the stock reeds in your outboard have a single-stage design that limits their efficiency. That's why stock outboards often cough and sputter at idle, fail to deliver a good hole shot, feel boggy or lifeless under throttle application, burn too much fuel or lack top end punch. Plus, standard reeds are made of metal. Should one break, it could cause extensive damage to your outboard. Boyesen Power reeds are different... and better! They feature a patented dual-stage design allowing our reeds to respond instantly to any change in air/fuel flow as you accelerate or back off the throttle. The result? A dramatic increase in efficiency and performance across the entire power band, from start-up to flat out!

The Warranty **DOES NOT** cover such things as:

FREIGHT DAMAGE

Pro part boxes are not shipping boxes. If you are shipping a part to a customer or sending a warranty return, the part must be packaged in a way to prevent possible damage. Place extra packing material around the part, place it back in the part box and then into a well packed, sturdy shipping container.

To prevent damage, properly pack all parts before reshipment.

BROKEN SOLENOIDS

The solenoid was not broken when the starter was packaged to be shipped. We have special boxes made for the starters, and we use special packing materials to ensure the item will arrive to the customer safely. Sometimes, though, the packages are mishandled by the carrier (i.e., dropped or thrown) and the solenoid becomes damaged. This is the carrier's responsibility. It is not a material defect; therefore it is **not covered by warranty.**

RUST, CORROSION OR SUBMERSIONS

Pro treats every component with a special rust and corrosion resistant coating to prevent water damage. However, it is impossible to protect the unit from direct contact with water. Therefore, a failure directly caused by rust, corrosion or submersion is **not covered by warranty.**

BROKEN MOUNTING FLANGES OR SHAFTS

A broken flange is typically caused by improper installation. The mounting holes may look evenly spaced in a triangular pattern, but they are not—one hole is slightly offset. Forcing a mounting bolt into the offset hole may cause the flange to break. This may also occur if the mounting bolts are not tightened evenly. A broken shaft is caused by a malfunction in the gearbox. These breaks are not material defects, and they are **not covered by warranty.**

CUT WIRES OR DISMANTLED UNITS

Cutting a unit's wires or dismantling a unit immediately voids the manufacturer's warranty. In addition, taking a motor off the reservoir and trying to install it on an old reservoir usually damages the brushes and seals in the motor. Disassembled parts are **not covered by warranty.**

BROKEN NOSE HOUSINGS, DRIVE GEARS OR INTERNAL GEARS

This type of failure is always blamed on a bad casting, defective drive gear or internal gears. In fact, it is caused when a starter, spinning at a high rate of rpm, comes to an abrupt stop. This can occur when an engine backfires or momentarily releasing the start switch and re-engaging the starter before it has spun down. It may also happen when a cylinder suffers a water hydraulic lock. In either case, the damage is not due to a defective part, and is **not covered by warranty.**

TECNOSEAL
 save your dreams

Zinc, Aluminum and Magnesium Marine Anodes for Pleasure Boats and Yachts.

Tecnoseal is one of the world's leading suppliers of sacrificial anodes for cathodic protection in the leisure boat market, and for shipping, offshore and industrial applications. With over 30 years of experience, we produce and supply from our foundry in Grosseto (Tuscany) Zinc, Aluminum and Magnesium anodes with our own peculiar passion for seeking top quality perfection of the product and the customer service.

Hull Anodes

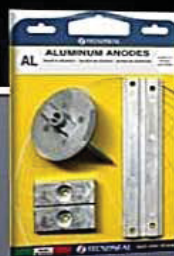

Shaft Anodes

Plates

Stern Anodes

Engine Anodes

Skeg Anodes

Replaces 332-4796A3, and A6. CDI's switch box and ignition coil are attached to a mounting plate for easy installation. This unit a replacement to the original case. It does not contain a tach circuit. Original cases can be special ordered with tach circuit. There is a \$10.00 surcharge for special orders.

TECNOSEAL
save your dreams

Zinc, Aluminum and Magnesium Marine Anodes for Pleasure Boats and Yachts.

Tecnoseal is one of the world's leading suppliers of sacrificial anodes for cathodic protection in the leisure boat market, and for shipping, offshore and industrial applications. With over 30 years of experience, we produce and supply from our foundry in Grosseto (Tuscany) Zinc, Aluminum and Magnesium anodes with our own peculiar passion for seeking top quality perfection of the product and the customer service.

① Standard Rotation Only.

② For Units With A Casting Number Of 1655-9572C Only.

③ For Units With A Casting Number Of 1674-814247C Only.

④ Two Bearings Required.

⑤ For 5/8 Dual Bearing Application.

⑥ Use 18-1155 For Counter Rotation Applications.

⑦ For Counter Rotation Use 18-1114.

* Special Order Part

2008 "K8" SUZUKI MODEL DESIGNATORS

Model Designators

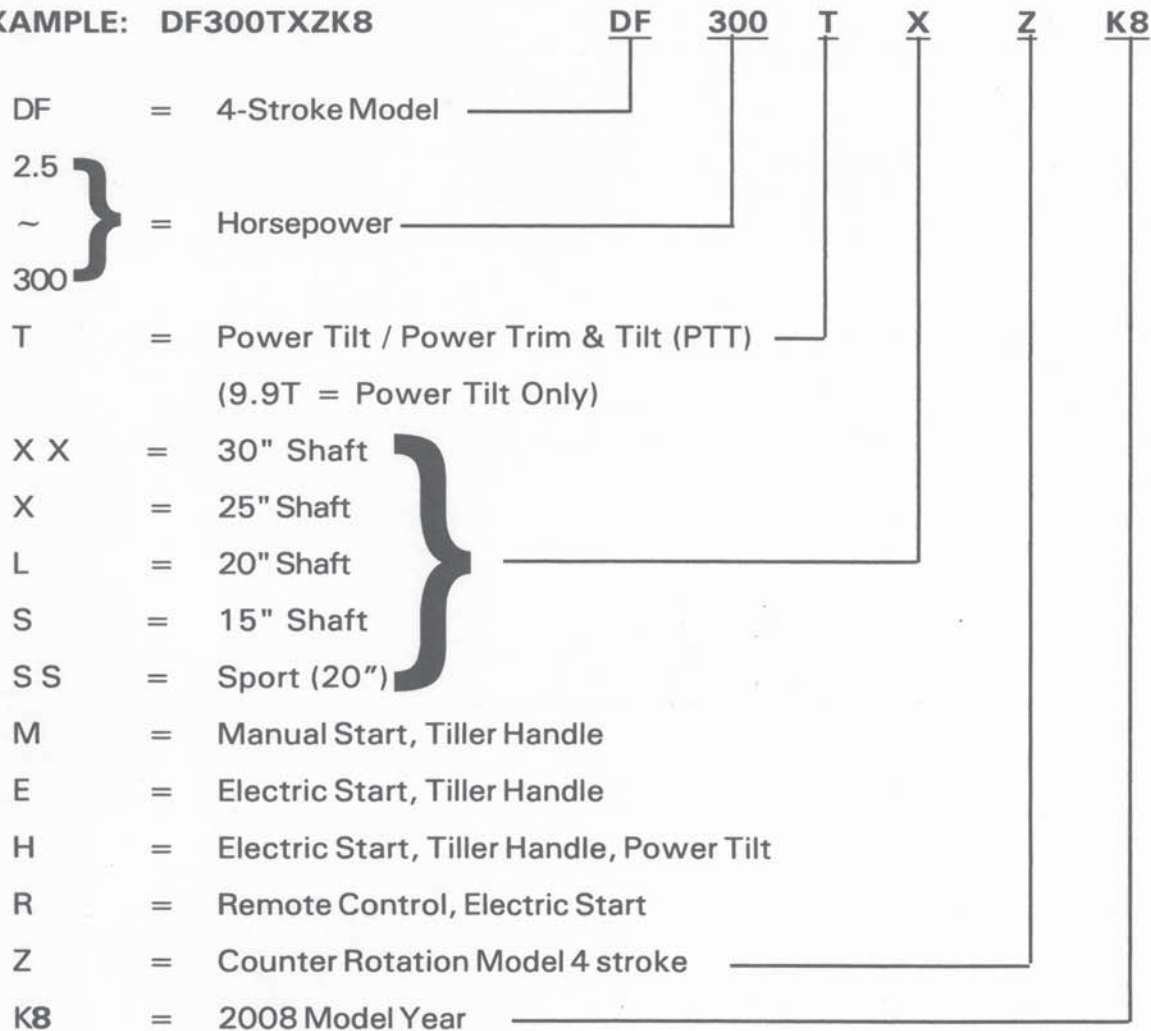

DF = SUZUKI OUTBOARD – 4-STROKE

Horsepower Designator

DF = 2.5 THROUGH 300

Feature Designators - Suzuki Models

EXAMPLE: DF300TXZK8

* Denotes an EFI model

✓ All DF300 units require Suzuki Precision Control (electronic throttle & shift) and Suzuki Digital Gauges

✓ A standard size composite/aluminum propeller is included with 2.5 ~ 40 HP models

✓ A remote fuel tank is included with 9.9 ~ 40 HP models

✓ A remote control box is included with DF9.9RL, DF9.9TL, DF9.9TX, DF25RL, DF40TL

****Single Stage Carbon Fiber Reeds**

For sustained High RPM operation (racing), add R suffix, e.g. 364R

Reeds are one way valves controlling the amount of air/fuel mixture entering the crankcase of your outboard engine, then sealing it in order to prevent it from escaping. Every two cycle outboard has them. But, the stock reeds in your outboard have a single-stage design that limits their efficiency. That's why stock outboards often cough and sputter at idle, fail to deliver a good hole shot, feel boggy or lifeless under throttle application, burn too much fuel or lack top end punch. Plus, standard reeds are made of metal. Should one break, it could cause extensive damage to your outboard. Boyesen Power reeds are different... and better! They feature a patented dual-stage design allowing our reeds to respond instantly to any change in air/fuel flow as you accelerate or back off the throttle. The result? A dramatic increase in efficiency and performance across the entire power band, from start-up to flat out!

****Single Stage Carbon Fiber Reeds**

For sustained High RPM operation (racing), add R suffix, e.g. 364R

Reeds are one way valves controlling the amount of air/fuel mixture entering the crankcase of your outboard engine, then sealing it in order to prevent it from escaping. Every two cycle outboard has them. But, the stock reeds in your outboard have a single-stage design that limits their efficiency. That's why stock outboards often cough and sputter at idle, fail to deliver a good hole shot, feel boggy or lifeless under throttle application, burn too much fuel or lack top end punch. Plus, standard reeds are made of metal. Should one break, it could cause extensive damage to your outboard. Boyesen Power reeds are different... and better! They feature a patented dual-stage design allowing our reeds to respond instantly to any change in air/fuel flow as you accelerate or back off the throttle. The result? A dramatic increase in efficiency and performance across the entire power band, from start-up to flat out!

**Single Stage Carbon Fiber Reeds

For sustained High RPM operation (racing), add R suffix, e.g. 364R

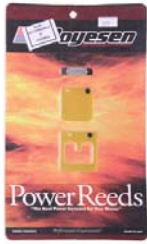

Reeds are one way valves controlling the amount of air/fuel mixture entering the crankcase of your outboard engine, then sealing it in order to prevent it from escaping. Every two cycle outboard has them. But, the stock reeds in your outboard have a single-stage design that limits their efficiency. That's why stock outboards often cough and sputter at idle, fail to deliver a good hole shot, feel boggy or lifeless under throttle application, burn to much fule or lack top end punch. Plus, standard reeds are made of metal. Should one break, it could cause extensive damage to your outboard. Boyesen Power reeds are different... and better! They feature a patented dual-stage design allowing our reeds to respond instantly to any change in air/fuel flow as you accelerate or back off the throttle. The result? A dramatic increase in efficiency and performance across the entire power band, from start-up to flat out!

The Power of WAI

Features:

- Extensive product line available with +450 part numbers
- WAI products are tested to OE specifications
- 100% NEW units (no core)
- WAI / Transpo electronics in all alternators
- Premium WBD bearing
- J1171 marine certification approved
- Online ordering and cataloging (e-store)

TECNOSEAL
save your dreams

Zinc, Aluminum and Magnesium Marine Anodes for Pleasure Boats and Yachts.

Tecnoseal is one of the world's leading suppliers of sacrificial anodes for cathodic protection in the leisure boat market, and for shipping, offshore and industrial applications. With over 30 years of experience, we produce and supply from our foundry in Grosseto (Tuscany) Zinc, Aluminum and Magnesium anodes with our own peculiar passion for seeking top quality perfection of the product and the customer service.

** Cold Climates

Note: **1993 and earlier models were equipped with standard type plugs not resistor type plugs). Resistor type plugs are recommended for all models to reduce electronic interference with other devices

The Warranty **DOES NOT** cover such things as:

FREIGHT DAMAGE

Part boxes are not shipping boxes. If you are shipping a part to a customer or sending a warranty return, the part must be packaged in a way to prevent possible damage. Place extra packing material around the part, place it back in the part box and then into a well packed, sturdy shipping container.

To prevent damage, properly pack all parts before reshipment.

BROKEN SOLENOIDS

The solenoid was not broken when the starter was packaged to be shipped. We have special boxes made for the starters, and we use special packing materials to ensure the item will arrive to the customer safely. Sometimes, though, the packages are mishandled by the carrier (i.e., dropped or thrown) and the solenoid becomes damaged. This is the carrier's responsibility. It is not a material defect; therefore it is **not covered by warranty.**

RUST, CORROSION OR SUBMERSIONS

Pro Marine treats every component with a special rust and corrosion resistant coating to prevent water damage. However, it is impossible to protect the unit from direct contact with water. Therefore, a failure directly caused by rust, corrosion or submersion is **not covered by warranty.**

BROKEN MOUNTING FLANGES OR SHAFTS

A broken flange is typically caused by improper installation. The mounting holes may look evenly spaced in a triangular pattern, but they are not—one hole is slightly offset. Forcing a mounting bolt into the offset hole may cause the flange to break. This may also occur if the mounting bolts are not tightened evenly. A broken shaft is caused by a malfunction in the gearbox. These breaks are not material defects, and they are **not covered by warranty.**

CUT WIRES OR DISMANTLED UNITS

Cutting a unit's wires or dismantling a unit immediately voids the manufacturer's warranty. In addition, taking a motor off the reservoir and trying to install it on an old reservoir usually damages the brushes and seals in the motor. Disassembled parts are **not covered by warranty.**

BROKEN NOSE HOUSINGS, DRIVE GEARS OR INTERNAL GEARS

This type of failure is always blamed on a bad casting, defective drive gear or internal gears. In fact, it is caused when a starter, spinning at a high rate of rpm, comes to an abrupt stop. This can occur when an engine backfires or momentarily releasing the start switch and re-engaging the starter before it has spun down. It may also happen when a cylinder suffers a water hydraulic lock. In either case, the damage is not due to a defective part, and is **not covered by warranty.**

Zinc, Aluminum and Magnesium Marine Anodes for Pleasure Boats and Yachts.
Tecnoseal is one of the world's leading suppliers of sacrificial anodes for cathodic protection in the leisure boat market, and for shipping, offshore and industrial applications. With over 30 years of experience, we produce and supply from our foundry in Grosseto (Tuscany) Zinc, Aluminum and Magnesium anodes with our own peculiar passion for seeking top quality perfection of the product and the customer service.
