

Verado Power Steering Pump Conversion

If You need a new Power Steering pump please proceed with the following Questions:

Which of the below pumps do you currently have?

(a)

(b)

a - Gen B power steering pump

b - Gen C power steering pump

NOTE: Power harness not included.

**If its "A" Gen B proceed to the next step
If its "B" Gen C proceed to the next Page**

Customers with "A" or Gen B models will have to convert their wiring over to the Gen C style and purchase a new Gen C Pump.

Part # for Pump is 8M0199048

You will also need part number 8M0152467

This replaced the metal dampener hose on the Gen B

You will need a new Power harness as well.

For a Power Harness with fuse order:

8M0150103 - 4 Ft 8M0150104 - 12 Ft 8M0150105 - 24 Ft

For Power Harness with out Fuse Order:

8M0150142 - 4 Ft 8M0150143 - 12 Ft 8M0150144 - 24 Ft

Only order the harness with out the fuse if the you already has a fuse in the boat. However, you need to make sure the fuse in the boat is 80Amp and not 50Amp like the Gen B requires!!!

You will also need a Signal Wire Conversion.

Part # is 8M0199050

This will convert your current signal harness to work with the Gen C Pump.

If you want to replace the entire Signal Harness you can order

8M0138676 - 10 Ft 8M0138677 - 20 Ft 8M0138678 - 30 Ft

Lastly if you have twins, Trips, or More Engines you may have to replace the Automatic Power Switch.

Locate the power switch in your boat and read the part number off of it or look at the diagram shown on it. If the diagram references 40Amp you need to replace.

Or if the box has one of the following numbers you will need to replace it:

895091K01, 895091K02, 895091K03, 8M0133815

If the Part number is 8M0149746 then you are good. Order 8M0149746 to replace the above #.

Example of what the box looks like.
